

Joy Foam (P) Limited

MANUFACTURERS OF
POLYURETHANE FOAM SINCE
1979

VISION

To build an ethical Company which provides value (finance, quality, service, good-will) to all its stakeholders.

Milestones

1979 - Established the first polyurethane manufacturing foam in Tamil Nadu, second in the South

1982 - Bought the first Laaderburg machine in India , from Norway, from the inventor of polyurethane foam

1990 - After creating a South Indian retail base, moved into Institutional customers for the first time.

1995 - Obtained ISO 9000 certification and started working with quality systems. Established an in-house laboratory with testing machines.

2015 - Moved into automotive sector with first order from Toyota

2022 - Turned around after poor covid performance
